Parts List (Back of Manual)	

INSTALLATION

Open the door and put the machine onto the cabinet so that the control panel is facing the door. Beware of fingers.

OPERATION

Press the rocker switch : green light is on, the machine is now ready for operation. Starts automatically when paper is inserted.

Stops automatically when no further paper is inserted.

Stops automatically when door is opened symbols  and  flash alternatively.

Stops automatically when plastic bag is full. Empty the bag when “bag full” indicator  lights (see page8).

Stops automatically if too much paper is inserted.
Automatic reverse if paper jams (Symbol “ON/OFF”  flashes).

required: Press the rocker switch “R” and remove paper.
Machine runs for a short time in reverse, if required repeat several times).

If

Reset by pressing the rocker switch . Re-feed the paper in smaller quantities.

Automatic stop if safety flap (A) is opened (symbols  and  flash alternatively). Close the safety flap and press the rocker switch , paper is shredded. To remove any paper debris from paper jam the machine runs for a short time reverse with open safety flap. If required press the rocker switch “R” several times.

MAINTENANCE

If the sheet capacity reduces or after the bag is emptied we recommend that you oil the shredding mechanism! (see picture).

TROUBLESHOOTING

Machine will not start

Is the machine plugged in?

Is the rocker switch  pressed? Is the green light rocker switch is ON (1)? Insert paper (2).

Feed the paper into the center of the feed opening (photo cell).

Is the door open?

Is plastic bag full?

Is the safety flap open?

Machine will not stop:

Remove plug, clean the photo cell (A) with a small brush.

Machine Stops:

Overload protection. Cooling down period approximately 10-15 minutes.

- ⊖ Symbols  and “R” flash alternatively.
- ⊖ Symbol  lights green, machine is ready for operation.

None of the above methods mentioned helped to solve the problem:
