

SEM Model 1012/5 DISINTEGRATOR
 (NSN 7490-01-471-2722)

The SEM Model 1012/5 Disintegrator is a popular Light / Mid Duty Disintegrator, providing high volume destruction in excess of 900 lbs/hr (Up to 500 Lbs per hr at NSA approved levels) and minimal space requirements.

The Model 1012/5, like all of SEM's Disintegrators **have been evaluated by NSA and meet the requirements of NSA/CSS Specification 02-02 ~ High Security Disintegrators for PPKM (Paper/Punched Tape Material), the NSA/CSS 04-02 ~ Optical Media Destruction Devices and the NSA / CSS 04-01 ~ Punch Tape Destruction Devices.**

SEM Disintegrators deploy **SOLID STEEL ROTORS** with 5/8" thick Knives and 10 hold down Bolts per knife. This design generates greater **Rotational Inertia** resulting in more durable cutting system with increased cutting power to handle denser and larger volumes of material.

Model 1012/5 Specifications

CAPACITY at 1" Particle Size	900 LBS per Hr
CAPACITY at 3/32" ~ NSA APPROVED	500 LBS per Hr
CUTTING SYSTEM	7 Blade Cutting System (5 Rotor / 2 Bed)
CUTTING CHAMBER and FEED OPENING	10" x 16"
CUTTING CHAMBER SAFETY SWITCH	INCLUDED
ROTOR	Solid Steel, Slant Design. 10.5" Cutting Circle
KNIVES	INSTALLED – 5 Rotor / 2 Bed, D2 Steel, 40 Degree Angle
SCREEN	3/32" Standard (others available – user selects)
MOTOR	15 HP, Open Drip proof Lincoln Motor
POWER	3 Phase at 460 V
STARTER	Size 1, Magnetic across-the-line. NEMA type 1
HOUR METER	Included
BELT GUARD	Included
BASE	Low base with pneu-vey transition for security evacuation. Equipped with 4" transition and 4.5" holes on both sides of "sand filled" sound reduced base.
WARRANTY	5 YEARS

SEM Model 1012 Features
 5- Blade **SOLID STEEL**
 Rotor with 10 Hold Down
 Bolts per blade for
 Maximum Cutting
 Performance and Long
 Lasting Durability

ABOUT SEM: Security Engineered Machinery is a Manufacturer / Distributor of Information Destruction Systems. As a **GSA Contract holder for the past 40 Years**, SEM has the experience and capabilities to provide and service high quality destruction solutions to various Government and Commercial customers throughout the World.

SEM: An ISO 14001 Registered Company
Demonstrating our commitment to a GREEN environment!
