

## SEM Model 0101 DEP "Sledgehammer" **HARD DRIVE CRUSHER** **w/TRANSPORT DEPLOYMENT CASE**

This hard drive "crusher" destroys all hard drives regardless of their size, format or type (**up to 1.85" thick**), including drives found in Laptop, Desktop and Server Systems. Hard Drives mounted in "caddies" used in rack mount server environments **up to 9 inches deep** can also be crushed **without having to remove the drive from the caddy**. At the touch of a button the Model 0101 HD Crusher delivers a staggering 12,000 pounds of force to a conical punch causing catastrophic trauma by bending and boring a hole through the hard drive chassis while destroying the internal platter. The unit is quiet (65 DbA when not crushing / 82 DbA when crushing), smooth, and virtually vibration free. Destruction takes only 8 seconds. A **safety interlock** prevents operation while the door is open to protect operators. An emergency e-stop button immediately halts operation when pressed.

Transport case comes equipped with custom foam inserts , telescopic handles and heavy duty casters.

### PRODUCT SPECIFICATIONS

<b>Drive Types - THICKNESS</b>	Desktop and Notebook Hard Disk Drives regardless of their size, format or type from up to 1.85" THICK.
<b>Drive Types – DEPTH</b>	Drives up to 9" DEEP including drives mounted in removable HDD Caddies used in Server Rack Mount Environments.
<b>Media Dimensions</b>	Up to 5.625" Wide x 1.85" High x 9" Deep
<b>Power Supply</b>	120v / 60hz / Single phase ( also available in 220V/ 50Hz )
<b>Power Consumption / HP</b>	7 A @120 VAC / 1/3Hp
<b>Destruction Time</b>	10 second full cycle (Destroy up to 4 Laptop drives in one 10 sec cycle).
<b>Dimensions / Weight</b>	10" W x 22" H x 19" D / 105 Lbs
<b>Warranty</b>	1 year parts / 90 Day Labor
<b>Deployment Case</b>	Hard case w/foam protection inserts, Wheels and Telescopic Handle
