

TOP TEN REASONS

WHY THE **MagEraSURE Model ME-P3M** is the **DEGAUSSER OF CHOICE** FOR “HIGH SECURITY” MAGNETIC MEDIA DEGAUSSING!

1. **Highest Rated NSA Approved Degausser** in the market (**5000 Oe Hard Drives and 2800 Oe Tape**). Listed on current **NSA Evaluated Products List (EPL)** for both Longitudinal Magnetic Recorded (**LMR**) Hard Drive Technology, as well as Perpendicular Magnetic Recorded (**PMR**) Technology.
2. **Mobile Design** – Table top Design for easy user operation and mobility from location to location. Optional Variable Height “Lift-Table” and/or Deployment Cases are available.
3. Easy to operate **Manual HAND CRANK** design to operate unit **WITHOUT Power**.
4. Quiet, fast, simple - **10 Second Manual Hand Crank Operation** .
No load “pop” at end of cycle. Actual Degauss time is one second.
5. Permanent Fixed Rare Earth Magnet Technology – Does not require electro-magnetic methods to degauss...**therefore No Heat** – allows for **continuous operation** with No Duty Cycles. Limited magnet degradation – shelf life over 100 years.
6. Manufactured by Toshiba – a **World Wide Industry leader in Hard Drive Technology** – have extensive insight to the future of magnetic media. **Unit has been Factory Tested and passed at future Hard Drive coercivity levels up to 6300 Oe with same erasure results. Reduces product obsolescence and Total Cost of Ownership.**
7. Distributed by **Security Engineered Machinery** – a worldwide supplier of Destruction and Degaussing equipment to the Federal Government for over 45 yrs. **On GSA Contract # GS-02F-0111P. SIN 75-200; 75-210. TAA Complaint**
8. World Wide **Service and Support –Toll free.**
9. **Annual re-certification process using High Density Hard Drives is available. 5 Yr Limited WARRANTY.**
10. **BEST VALUE in the market !**
