

SECURITY ENGINEERED MACHINERY

For DVD destruction an optional manual splitter is available. Once the DVD is split both halves can be ground clean.

Technical Data Sheet

DX-CD2 Optical Media Destroyer

Total Optical Media Data Elimination

The DX-CD2™ Data Destroyer securely and permanently removes digital information from optical storage media. This premium device deploys a patented technology that grinds the information layer off of the media and is 100% effective. All data is eliminated completely and permanently and there is no possibility of forensic recovery.

Just load the disc on the hub, push the start button and in just 18 seconds the cycle is complete. Ground particles are safely captured in a vacuum waste collection bag

Compliance

UNITED STATES: The DX-CD2 has been evaluated by NSA and meets the requirements of NSA/CSS Specification 04-02 for CD Media Destruction.

The DX-CD2 meets NIST SP 800-88 standard for Optical Disc Destruction and is HIPAA, FACTA, Sarbanes-Oxley and Gramm-Leach-Bliley compliant.

CANADA: G1-001 Security Equipment Guide (SEG) The DX-CD2 and the DX-DVDm meets the requirements of the Canadian Royal Mounted Police (RCMP) for listing in the G1-001 Security Equipment Guide (SEG) as an approved device for the destruction of all Classified and Protected information on optical media when used in accordance with the operating instructions.

Specifications

Cycle Time: 18 Seconds

Voltage: 115V (International Voltages Available)

Motor: 65 Watts

Waste Collection: Internal Vacuum

Weight: 5 pounds

Unit comes completely assembled and ready to use. Includes: Two Waste Collection bags (one installed, one replacement) and Two Cutting Blades (one installed, one replacement).
