SEM Model 0301 "Jackhammer" HARD DRIVE SHREDDER

When it comes to the fast, safe, easy destruction of hard drives, nothing outperforms the Jackhammer™ from SEM. This slow speed, high torque shredder uses specially designed saw tooth hook cutters to chew up about 30 hard drives in a minute. That's just 2 seconds per drive (Our testers told us they probably could have done more, but they just couldn't feed it fast enough). It's clean, quiet (70 to 88 dB), vibration free, and has a small footprint. And, since it's mounted on casters you can literally use it anywhere. With it's convenient "discharge conveyor", shredded material is easily deposited into a dumpster, barrels, Gaylord boxes or any convenient waste collection container. Unit is MADE in AMERICA

In addition to Hard Drives, the Jackhammer is ideal for the shredding of **cell phones, blackberries, data tapes, optical media, memory sticks and similar electronic data storage devices.**

PRODUCT SPECIFICATIONS

Drive Capacity / Speed	30+ per minute / 2,000 per hour *
Shred Size:	Random x 1.5" wide
Power / HP	5 HP , 460/ 220 /208 V , 3 Phase (User Selectable Voltage)
Hour Meter	Included
Throat Width:	8" X 2.5" Feed Opening
Dimensions (WxHxD)/ Weight	54" x 50" x 30" (Depth w/ conveyor ~ 80") / 2,800 Lbs
Evacuation	Discharge conveyor INCLUDED
Std Warranty	24 Months Parts / 90 Day Labor

POWER NOTE ~ 3 PHASE power at 208, 230 OR 460V

(**User selects**). The Model 0304 does NOT come equipped with a Plug and/or Receptacle. User is responsible to provide such. A licensed electrician is recommended to install. Plugs and Receptacles are dependant upon selected voltage.

PERFORMANCE NOTE ~ Output is dependant upon size and thickness of drives being destroyed.
