Technical Data Sheet

Model 0101 Sledgehammer™ Hard Drive Crusher

Physical Destruction of Hard Drives

This hard drive crusher destroys all hard drives regardless of their size, format or type (from .65 to 1.65 inch), including laptop drives. At the touch of a button, the Sledgehammer™ delivers a staggering 12,000 pounds of force to a conical punch causing catastrophic trauma to the hard drive chassis while destroying the internal platter. The unit is quiet, smooth, and virtually vibration free. Destruction takes only 10 seconds.

A safety interlock prevents operation while the door is open to protect operators, and an emergency e-stop immediately halts operation when pressed.

Specifications

Power Supply: 120V/1/60Hz,
optional 220-240V, 50 or 60Hz available

Power Consumption: 5A @ 120V

Media Destroyed: Hard drives up to 1.62" height
(includes 3.5" and 2.5" technology)

Destruction Time: 10 seconds cycle for all drive types

Operating Environment: 34°F - 115°F

Weight: 105 lbs

Dimensions: 22"H x 10"W x 19"D
