

SEM Model DX-CD2 **Optical Media Data Destroyer**

The DX-CD2™ Data Destroyer securely and permanently removes digital information from optical storage media (CDs/DVDs). This premium device deploys a patented technology that **grinds** the information layer off of the CD/DVD and is 100% effective. All data is eliminated completely and permanently and there is no possibility of forensic recovery.

The DX-CD2 has been evaluated **by NSA and meets the requirements NSA/CSS Specification 04-02** The unit is listed on the 04-02 NSA Evaluated Products List capable of erasing data that resides on **CDs**. The DX-CD2 reduces the data layer on an optical disc, both CD and DVD, to 250 microns (.5mm x .5mm or .25mm²)

NOTE.....The DX-CD2 version listed on GSA Contract meets TAA (Trade Compliant) Guidelines

The DX-CD2 also **meets NIST SP 800-88** standard for Optical Disc Destruction and is **HIPAA, FACTA, Sarbanes-Oxley and Gramm-Leach-Bliley compliant**. The RCMP (Canada) has evaluated the DX-CD2 for both CD and DVD optical discs and has found that the DX-CD2 meets their requirements for the destruction of Canada's Governmental sensitive and classified data on both types of optical media.

SYSTEM PERFORMANCE FEATURES:

- | | |
|---|------------------------------------|
| • NSA/CSS Rating | Up to 150 Disks per Hr (CDs only) |
| • Speed | 18 Seconds per disk (180 Hr) |
| • Waste Collection | Integrated Vacuum |
| • Power | 110V or 220V |
| • Dimensions (W x D x H) / Weight | 222mm x 317mm x 110mm / 65 Kg |
| • Dimensions / Weight (inches / Pounds) | 8.75" x 12.5" x 4.3" / 5 .5 Lbs |
| • Warranty | 1 yr |

Unit comes with Cutter and Vacuum Bag installed as well as One Extra Replacement Cutter, One Extra Vacuum Bag AND one DVD Splitter.
